

Written Authorization for Emergencies

Emergency Procedures

In the event of a serious accident needing medical attention we will:

- Administer the necessary First Aid and /or CPR
- Call 911 and, if needed, your child will be transported by ambulance to Unity Hospital in Fridley (at parental expense).
- Notify parents by telephone. If parents cannot be reached, we will contact the individual listed on the child's emergency Card. If no one can be reached and immediate medical care is required, your child will be taken to the nearest medical facility (at the parent's expense).

I have read the following policy above and understand it. I further give my permission for a Staff member from David's Christian Learning Center or an ambulance to transport my child in the case of an emergency if I am not reachable. I also understand that my child may be transported if our emergency contacts are not available either.
